

OTHER WW2 W/T FITS

The vessel-W/T Fits in this section are too numerous to mention individually.

However, it can be said that the Marconi Company had a 'field-day' in supplying the equipment necessary to make sure that each and every one of them, however minor, was fitted with a transmitter and a receiver.

The total fits shown are 532 of which 447 are Marconi Fits more or less 'sweeping the board' with its TW12 transmitter and receivers. Other equipment was fitted, and here are the names of the non-Marconi equipment.

IMR = 32 Fits

AWA = 5 Fits

GAMBRELL = 21 Fits

SIEMENS = 23 Fits

IMC = 4 Fits
